

## MIKE DADDIEGO

Mike Daddiego has been part of this community since 2017 and lives on Crimson Drive. He is running in the May 2026 election for the Condominium Board of Directors. At 75, he recently retired after a long career in commercial construction, where he gained hands-on experience in contract negotiation, building systems, and project oversight.

He has also served on the Board of Directors of Club Italia in Niagara Falls, showing his commitment to being involved and giving back to the community. Now that he's retired, he has the time to focus on the needs of the condominium and its residents.

He cares about keeping the property well-maintained and looking its best, while also keeping a close eye on costs so condo fees stay reasonable. His goal is to help protect property values and make sure the community remains a great place to live. He would appreciate your vote.

# Glen Frankling

2 Crimson Drive, St. Davids

My wife Nancy and I have been proud owners of #2 Crimson Drive since 2017, when we moved from the Oakville/Burlington area. When we were searching for a place to retire, our priority was finding a well-maintained, safe, and welcoming community. We feel fortunate to have found exactly that in Harvest Village.

Although my retirement plans were delayed, I have continued to commute to Burlington 2–3 times a week for my role at Arriscraft, where I have worked for 48 years. Over that time, I have held several positions, most recently Senior Vice-President of Strategic Development. (As a fun connection, Arriscraft supplied the stone used on the Harvest Village facades.) I will be retiring—at least from full-time work—at the end of May.

I have wanted to volunteer for the board for some time, but my work schedule made it difficult. With retirement approaching, I am now ready and able to serve our community if elected. I previously served on the board of a small condominium complex in Burlington in the 1980s. That board was responsible not only for property and roads, but also for the buildings themselves. The homeowners were a mix of singles, couples, and families, and although board members often had different viewpoints, we always worked collaboratively and respectfully to make decisions that benefited the community.

Nancy and I take great pride in maintaining our gardens, and we've appreciated the kind comments from neighbors over the years. If elected, I hope to work with the other board members to maintain the high standards that make Harvest Village such a special place, while also keeping a careful eye on expenses so we can preserve what we have without unnecessary cost.

I look forward to seeing everyone at the GM meeting on May 20th.

## Dave Gardner

32 Crimson Drive, St. David's,

My wife Dian and I moved to Harvest Creek last August, moving down from Victoria Harbour, which is just outside of Midland Ontario. We have vacationed and visited the Niagara region, particularly NOTL, for many years and decided that after moving around quite a bit in the past five years, we would establish our permanent roots here. Our first drive through Harvest Creek, seeing the condition of the property and homes was all it took to convince us that this is the community in which we wanted to live. The location and privacy are perfect for our lifestyle, as we travel a fair amount. Meeting many of our neighbours since moving in has confirmed we made the right decision!

Dian and I have three grown children, spread out between Toronto, White Rock, BC and Aberdeen, Scotland, where our two Grandchildren live. We're both retired and our "to do" list, when not travelling, is limited to walking, golfing and visiting the wineries in Niagara.

As new owners, we felt it important to get involved in understanding how the community functions and operates, so what better way than to join the board and try and help maintain the beautiful community in which we live. Given my work career and background, I believe I can contribute to the board's activities.

My working career was primarily in the automotive industry, the majority with Honda, which I joined in February 1989. After a 31+ year career at Honda Canada, based in Markham, Ontario, I transferred to American Honda Motor, Co. in Torrance California in May 2020 and retired in March 2023.

During my career at Honda, I held a number of positions with increasing responsibility in both Zone and National Office functions and in April 2017, I became the second Canadian President and CEO in Honda Canada's history, as well as Chairman of the Honda Canada Inc. Board of Directors, a member of the North American Regional Operating Board and a member of the Honda Canada Finance Inc. Board. In May 2020, I joined American Honda Motor Co. Inc. as Executive Vice President, maintaining my membership on Honda's North American Regional Operating Board and became a member of the American Honda Board of Directors.

As I mentioned above, I believe I can apply my experience in a positive way and look forward to serving the community – contributing in any way I can to help keep Harvest Creek the place we are all proud to call home.

## Rob McVeigh

11 Hillside Drive, St, Davids

My wife, Bev, and I moved from Mississauga to St. Davids in the summer of 2011, just as Harvest Creek was starting to be built. We both took an early retirement and spent a lot of time searching out an area we thought would be a good fit and this spot ticked all the boxes.

We lived in a full condo townhouse development in Mississauga for 17 years so I've had more than 30 years' experience with this lifestyle and am aware of the differences between full condo and vacant land condo as is the case here in Harvest Creek. I know how important it is to achieve a balance with the amount we pay in maintenance fees each month: we need to spend enough to keep our standards up but, most importantly, we need to do so in a fiscally responsible manner with a constant eye on the future so we can cover our expenses as repair and replacement needs arise to make sure our neighbourhood continues to be a place we can all be proud to call home.

I've now served on the Board for 3 years and am putting my name forward for a second term.
